LinkedIn: [/GiovanniSosa](https://www.linkedin.com/company/giovannisosa) | Portfolio: | GitHub: <https://github.com/gisosa531>

Aspiring fullstack web developer leveraging brain research, biology, and linguistics background to create a more intuitive web experience in the medical and research fields. Recently earned a full-stack development certificate from UC San Diego that strengthened my passion for merging technology with other fields. Strength in adroitness, teamwork, and building creative projects to execution.
